You're Rights Regarding Health Information About You

The following is a statement of your rights with respect to your protected health information and a brief description of how you may exercise these rights.

You have the right to inspect and copy your protected health information.

This means you may inspect and obtain a copy of your protected health information that is contained in your designated file for as long as we maintain the protected health information. A "designated file" contains medical and billing records and any other records that your physician and the office use for making decisions about you. Under federal law, however, you may not inspect or copy the following records; psychotherapy notes; information compiled in reasonable anticipation of, or use in, a civil, criminal, or administrative action or proceeding, and protected health information that is subject to law that prohibits access to protected health information. You must make a written request to inspect and copy your designated file. We may charge a reasonable fee for any copies.

Additionally, if we maintain an electronic health record of your designated file, you have the right to request that we send a copy of your protected health information in an electronic format to you or to a third party that you identify.

We may charge a reasonable fee for sending the electronic copy of your protected health information.

Depending on the circumstances, we may deny your request to inspect and / or copy your protected health information. A decision to deny access may be reviewable. Please contact our office if you have questions about access to your medical records.

You have the right to request a restriction of your protected health information. This means you may ask us not to use or disclose any part of your protected health information for the purposes of treatment, payment or healthcare operations. You may also request that any part of your protected health information not be disclosed to family members or friends who may be involved in your care or for notification purposes as described in this Notice of Privacy Practices. Your request must state the specific restriction requested and to whom you want the restriction to apply. This office is not required to agree to a restriction that you may request. If this office believes it is in your best interest to permit the use and disclosure of your protected health information, your protected health information will not be restricted. If this office does agree to the

requested restriction, we may not use or disclose your protected health information in violation of that restriction unless it is needed to provide emergency treatment. With this in mind, please discuss any restriction you wish to request with your physician. You may request a restriction by contacting our office.

You have the right to restrict information given to your third party payer if you fully pay for the services out of your pocket.

If you pay in full for services out of your own pocket, you can request that the information regarding the services not be disclosed to your third party payer since no claim is being made against the third party payer.

You have the right to request to receive confidential communications from us by alternative means or at an alternative location.

We will accommodate reasonable requests. We may also condition this accommodation by asking you for information as to how payment will be handled or specification of an alternative address or other method of contact.

We will not request an explanation from you as to the basis for the request. Please make this request in writing to our office.

You may have the right to have your physician amend your protected health information. This means you may request an amendment of protected health information about you in your designated file for as long as we maintain this information. In certain cases, we may deny your request for an amendment. If we deny your request for amendment, you have the right to file a statement of disagreement with us and we may prepare a rebuttal to your statement and will provide you with a copy of any such rebuttal. Please contact our office if you have questions about amending your medical record. Your request must be in writing and provide the reasons for the requested amendment.

You have the right to receive an accounting of certain disclosures we have made, if any, of your protected health information.

This right applies to disclosures for purposes other than treatment, payment or healthcare operations as described in this Notice of Privacy Practices. It excludes disclosures we may have made to you, for a facility directory, to family members or friends involved in your care, or for notification purposes.

The right to receive this information is subject to certain exceptions, restrictions and limitations. Additionally, limitations are different for electronic health records.

You have the right to obtain a paper copy of this notice from us, upon request, even if you have agreed to accept this notice electronically.

You have the right to receive notice of a security breach. We are required to notify you if your protected health information has been breached. The notification will occur by first class mail within 60 days of the event. A breach occurs when there has been an unauthorized use or disclosure under HIPAA that compromises the privacy or security of your protected health information. The notification requirements under this section only apply if the breach poses a significant risk for financial, reputational, or other harm to you. The notice will contain the following information: (1) a brief description of what happened, including the date of the breach and the date of the discovery of the breach;

(2) the steps you should take to protect yourself from potential harm resulting from the breach; and (3) a brief description of what we are doing to investigate the breach, mitigate losses, and to protect against further breaches. Not every impermissible use or disclosure of protected health information constitutes a reportable breach. The determination of whether an impermissible breach is reportable hinges on whether there is a significant risk of harm to you as a result of impermissible activity. For example, if your protected health information was inappropriately shared with a billing clerk and she understood her confidentiality obligations, you would not need to be notified of the breach. If we inadvertently disclosed that you received services at our facility, without more specifics, this also may not be a reportable breach because it may not have been a significant risk of financial or reputational harm. The key to determining potential harm is whether sufficient information was released that would allow identity theft or harm you because of the likelihood of sharing sensitive health data.
